To harmonize is a part of who i am and the core of my work. Sensitive since i was very young i have developped faculties that allow me to feel space and energies around us. ### CONNECTIVITY

### WORK WITH THE FIELD & THE LAND

Co creation with the land. What does the land has to say and what particularities does it need for the owner. Observe, listen and put in place some energetic structures as mandalas, chakra path labyrinth, meditation and regenerative spot...

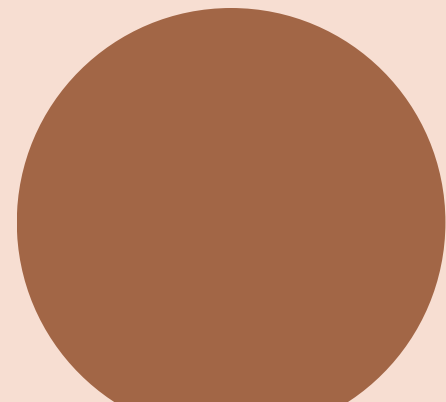

### CO CREATION WITH ELEMENTALS

Nurturing a sacred space. The place needs to serve the owner and vice versa. How to Incorporate symbolisations of the 5 elements in particular spots regarding the needs of the place to live is a way to do it.
